

“It is Tootgarook’s turn” says local MP

Martin Dixon, Member for Nepean has called for the Brumby Government to fulfil its promise to fund the new school for Tootgarook Primary School in this year’s state budget.

Speaking in Parliament, Mr Dixon said that Tootgarook Primary School really deserved their new building.

He said the community has been living on a promise for three years and with the advent of the Federal Government’s recovery package funding for schools, the

school needed certainty that the rebuild will go ahead before they apply for the Federal Funding of their playground area.

Mr Dixon said “The Tootgarook community really cares about and supports the school as witnessed by its huge monthly community market and the community hall built by the community on the school site. It is now time for the Brumby Government to also care about and support Tootgarook Primary School.
